RoHS Transition Policy

Dear Valued Customer:

On January 27th, 2003 the European Union passed the “Restriction of the use of certain hazardous substances in electrical and electronic equipment”. Commonly known as “RoHS” legislation 2002/95/EC, became effective on July 1st, 2006. Projects Unlimited Inc. is working diligently to comply with the RoHS requirements. Many of our components meet the RoHS directive, with the remaining devices nearing completion.

Projects Unlimited, Inc. realizes that the availability of RoHS compliant parts is becoming critical. We have developed transition policies that will allow a seamless transition while maintaining our high level of quality. We currently have RoHS inventory available for immediate shipment and sampling.

Projects Unlimited, Inc. will be phasing non-RoHS products from our offering. In compliance with the EU RoHS 2002/95/EC deadline, all non-RoHS products will be changed to a special status on September 30th, 2006. This means that after September 30th, 2006 non-RoHS inventory will no longer be stocked in our warehouse. You may still be able to order non-RoHS inventory. However after September 30th, 2006 non-RoHS products will not be manufactured until a non-cancelable/non-returnable sale is acknowledged. In some instances, lead-times and pricing may increase.

Projects Unlimited Inc. will no longer accept orders for non-RoHS products after December 31st 2006.

Projects Unlimited, Inc. is in transition at this time to RoHS manufacturing techniques and technologies. As the manufacturing industry converts to RoHS there may be obsolete non-RoHS components and shortages of some products. During the transition period there may be instances where received inventory may be mixed. Our policy dates are dictated by EU RoHS 2002/95/EC compliance and availability of non-RoHS materials. Projects Unlimited, Inc. cannot guarantee all Non-RoHS products to the above dates. It is recommended that you contact your local PUI representative for the most recent availability concerning your audio component.

Projects Unlimited, Inc. appreciates your business and we thank you for working with us.
